
David Katz
Executive Director
Sonoma Land Trust

From: Danica Remy

Dear David,

Please find attached letters of thanks from the WER Staff and myself for your contributions to Whole Earth during the last years. We are waiting for the press release that you asked David Kupher to craft announcing your departure from the board. When is it completed please ask him send it via email to me and Alex and I will see that it is placed on the wire services pronto. I would suspect just the appearance of Whole Earth's Name on the wire service will generate some great leads.

The following people agreed to join the board after your departure notice:

Robert Hillman Filmmaker
Esther Eidinow GBN Editor
Sidney Lanier New Media and Film
Marty Krasney Writer and Philanthropist
Peter B. Collins Literacy advocate and radio personality (pending discussion)

Please forward any outstanding paperwork to Alex as soon as possible. And let me know if you can think of any outstanding magazine business issues that will require attention.

David thanks again for your service and support of the magazine during your time with the Point Board. You had to make some tough calls and have some frank discussions during difficult times and I truly appreciated your efforts. I wish you great successes in your future adventures!

All the best,

Danica Remy
